**WE SEE IT  
DIFFERENTLY.**

## When you're upside down, you see things differently.

When we tell people we are building a global brand, based in a tiny mountain town, at the very bottom of the world, they sometimes think we're crazy. We think we'd be crazy not to. Because the view from down here doesn't just make a stunning postcard, it makes you see the world differently. We think that's exactly what the world needs.

When we started Mons Royale in 2009 we saw things differently, and to be honest, I think we always will. We've faced challenges and difficulties, the ups and downs of being upside down; trying to be the odd sock, the square peg, the black sheep. The truth is, we've loved every moment. Everything is up from here. We try harder. We're willing to go further. We're already taking a risk, so taking another isn't so hard. That's why you'll always find our ranges are different from the norm.

We launch Southern Hemisphere first, produce content and gain valuable product feedback so that we can apply this with force for our Northern Hemisphere launch. We also design differently. Isolation is inspiration when you have the most majestic mountains on your doorstep, and the design studio is steps away from mountain bike tracks. This means we can walk out the door and test our products in the environment they were designed for.

FW20 introduces distinctive new collections that have been painstakingly designed to suit their purpose. From technical constructions and fabrications, to expressive colour, all over prints and graphics. This season was inspired by one particularly special mountain - my childhood ski field; Ohau. (Also the location of our FW20 photoshoot). Our parents rocked retro ski gear with denim jeans. Tricks were called jumps... tight tucks and poles back. You can find the reimagination of this era in our Alpine Retro and VHS Effect collections. We hope you'll agree that retro is so right now, right now.

For something more low key, we have introduced rich new earthy colours that have been inspired by our native New Zealand surroundings. But we bring our trademark splash of energy to this natural world by contrasting with an element of disruption.

It's the disruptive attitude that inspires us. It's what drives us to challenge the status quo and prove that a little bit of crazy from a tiny mountain town at the bottom of the world can actually be a very good thing.

HANNAH ACLAND

CO-FOUNDER | CREATIVE DIRECTOR MONS ROYALE

**OHAU. A SLICE OF MOUNTAIN PARADISE THAT IS UNLIKE ANY OTHER SKIFIELD ON THE PLANET.**

HIDDEN VALLEY

**Ohau Snowfields.  
The location of  
our latest FW20  
photoshoot.**

Tucked away high in the Southern Alps under the shadow of New Zealand's highest peaks, family owned and operated Ohau Snowfields is a special slice of mountain paradise. Here, a single chairlift provides access to some outstanding terrain and queues are simply unheard of.

This unique hidden valley provides more than just soul skiing and riding. Follow the river north for epic hikes through grass plains and native forests.

A (not so secret) hidden valley that has inspired our FW20 shoot.

Louise and Mike  
of Ohau Snowfields

Gus Rowley is not your typical farmer. He's a rare breed who can walk and talk farming as comfortably as he can turn and burn a pair of skis.

---

**Q. WHY WOOL? A. PERFORMANCE**

WE ASK GUS ROWLEY, THE FARMER WHO SKIS.

**Merino are the oldest farm-bred sheep in the world. These wooly badasses reside high in the alpine hills of New Zealand, where the climate is harsh.**

**When it's hot; it's blazing. And when it's cold; it's got bite. But merino actually thrive in these conditions, thanks to their wool. Merino wool is a naturally better performance fibre because it has evolved to withstand extremes. This gives it some incredible properties.**

## Performance of Merino Wool

### + ANTI ODOUR

The crimped structure of the fibres means that bacteria cannot attach itself to the wool, so merino garments stay fresher for longer.

### + TEMPERATURE REGULATION

Merino is nature's air conditioning, when it's cold it releases heat as it absorbs moisture and keeps you warm. When it's hot the process is reversed and has a cooling effect.

### + BREATHABLE

Merino has a very high moisture absorption capacity so will keep you dry by transporting moisture away from the body.

### + SOFT

The fine gauge of merino fibres makes it super soft. This means merino is perfect for underwear, base layers and bike apparel where you want to reduce friction.

### + 100% RENEWABLE

Merino wool is a sustainable, natural material that is 100% biodegradable.

## Sustainability

---

### + TRACEABLE

We use ZQ merino wool sourced via forward contracts directly from ZQ certified farms. The forward contracts are fully traceable to the farm, up to 3 years in duration, and designed to provide growers and us with transparency, provenance and stability in terms of quality and price.

### + ANIMAL WELFARE

ZQ merino sheep live free range lives under the 'Five Animal Freedoms' charter. ZQ also does not permit bulk live international shipping, mulesing, or the use of permanent feedlots.

### + NO MULESING

Mulesing is not practiced by any ZQ grower so you can be assured that Mons Royale merino is 100% mulesing free.

### + ENVIRONMENTAL SUSTAINABILITY

All ZQ growers create a Farm Environmental Plan (FEP) to manage the impacts to their individual property.

### + PEOPLE

ZQ growers are bound to careful stewardship of the land and the health and safety of those living and working on it.

### + FIBRE QUALITY

Each fleece is assessed in the woolshed by an expert wool classer to ensure consistency in tests whiteness, strength and contamination.

### + THIRD PARTY AUDITING

ZQ growers are audited by an independent third party who inspect sheep, farms and facilities to ensure all these standards are met.

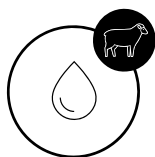

**Q. WHY WOOL? A. SUSTAINABLE. ETHICAL. TRACEABLE.**

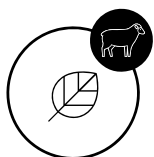

WE USE ZQ MERINO WOOL.

**The world's leading ethical wool brand. It stands for a better quality of life. For the animals, for our planet, for our people and for you. ZQ farmers believe in farming sustainably and live for the ZQ values.**

## Underwear

FIRST ON. LAST OFF.

Mission critical next to skin comfort and fit for active lives. Super soft and odour resistant, Mons' high performance merino underwear provides athletic support and natural temperature regulation with bold, contemporary style.

## Base

MULTISPORT. YEAR ROUND.

The cornerstone of the Mons Royale range. Design and fabric innovations enhance the natural benefits of merino to deliver high performance multisport garments with year round functionality.

Multiple fabric weights provide warmth, breathability and comfort, whatever your latitude, environment or activity.

## Core

PACK LESS. DO MORE.

Versatile styles designed to work both on and off the mountain, allowing you to pack less and do more.

Highly functional with bike shorts or snow pants yet everyday wearable with jeans.

## Bike

MTB SPECIFIC PERFORMANCE.

The ultimate in on-bike functionality through the performance benefits of merino wool. No matter your taste in terrain or riding style, merino's legendary moisture management, temperature regulation and odour control will enhance your ride, uphill and down.

## Snow

ON SNOW PERFORMANCE.

High performance layering options that deliver merino's technical benefits in the park or out in the backcountry. Smart features and attention to detail combine with a range of fabric weights and fits to ensure the Mons Snow collection delivers unparalleled on-snow performance without compromising on style.

Base, mid and insulation layers all provide merino's legendary moisture management, temperature regulation and odour control for mountain dwellers around the world.

## Lifestyle

DESIGNED FOR THE RIDERS LIFESTYLE.

For the ride to work or round the world trips, #vanlife or downtime, our Lifestyle collection uses natural dyes and biodegradable fibres like merino wool, organic cotton and Tencel™ for comfort and guaranteed good times.

Relaxed staples offer everyday comfort and style yet retain the performance of merino for when adventure calls.

# RANGE BREAKDOWN

## Our Fits

**Multiple fits means performance at every comfort level.**

### SLIM FIT

---

A classic performance fit with a figure hugging silhouette that is perfect for layering.

STANDARD FIT

Our standard fit offers comfort and versatility.

RELAXED FIT

A loose fit for everyday staples.

# Layering System Breakdown

## BASELAYER

### ULTRA-LITE

#### 140-170gsm

Lightweight performance for people who run hot and for warmer days.

Arete / Neve

## HEAVYWEIGHT

### 200gsm

Warmth no matter what.

**200gsm Merino Wool Insulation**  
Nordkette

# **FIRST ON. LAST OFF.**

**SINCE 2009**

**The first products we designed were underwear and baselayers. That is where the tagline **FIRST ON. LAST OFF.** came from.**

**Now, as we develop products, we keep that tagline in mind because our design ethos is to create the most loved and first pieces of clothing in the bag for a weekend or adventure.**

**We start with merino wool as our foundation. Then, if needed, we look to add natural materials like Tencel or recycled synthetics to create a cooler garment or increase strength, durability or wicking speed.**

**Today our fans can wear Mons Royale from head-to-toe, on the bike, skis and all the life in between.**

# Colour Stories

## VHS EFFECT.

Inspired by the bold blocks and vivid colours of the 90s, the VHS Effect colour story is reimagined for modern applications. Combined with black this story brings punch and energy to make a bold statement.

## ALPINE RETRO.

Think fashion. Ski fashion from the 60s. They weren't called tricks, just jumps. Poles back and tight tucks. This colour story is inspired by this era, and is grounded by an Alpine Retro stripe that can be styled for on or off the alps.

## WILD THING.

Bringing the attitude to base layer through all over animal print. A style inspired by the Tom Boys of the mountain.

## KHAKI ROSE.

A new look for Mons, this palette combines rich earthy colours and hits of soft pink to bring subtle femininity.

## MINT EDGE.

A palette that is inspired by the green glaciers of New Zealand's Aoraki National Park. The combo of grey marl, mint and lemon pops makes this micro colour story modern and minty fresh.

# Colour Stories

## VHS EFFECT.

Inspired by the bold blocks and vivid colours of the 90s, the VHS Effect colour story is reimagined into modern applications. Combined with black this story brings punch and energy to make a bold statement.

## ALPINE RETRO.

Think fashion. Ski Fashion from the 60s. They weren't called tricks, just jumps. Poles back and tight tucks. This colour story is inspired by this era, and is grounded by an Alpine Retro stripe that can be styled for on or off the alps.

## URBAN CAMO.

Low key, but edgy. This concrete palette's main feature is a tonal camo print that is popped with gold accents to bring the just the right amount of energy.

## ATLANTICA.

A deep oceanic palette that collides with a smash of orange. Natural, modern and edgy - from head to toe.

## EARTH.

A rich earthy palette inspired by the alpine tussock lands of New Zealand's Central Otago. Hits of orange smash and black combinations bring edge and energy.

## VHS EFFECT.

A woman is standing in the center of the frame, wearing a bright pink knit beanie, a dark navy blue jacket over a blue turtleneck, and dark blue ski pants with pink accents. She is looking directly at the camera with a neutral expression. The background is a plain, light grey wall.
